

Seamless Integration between Office 365 and IFS Applications™

Automation & Integration Server

POWERFUL SYNCHRONIZATION!

Are you looking for a solution that integrates Microsoft Office 365 with the CRM module in IFS Applications? Look no further!

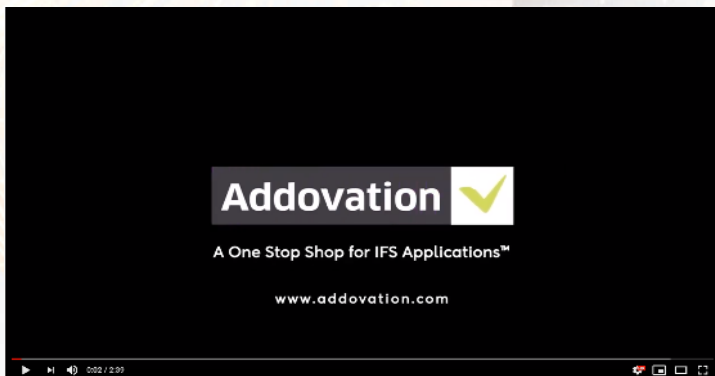

Addovation has developed a solution that features support for exchanging of business activities, calendar appointments and contacts between Microsoft Office 365 and IFS Applications! The solution offers a powerful synchronization that connects business activities, calendar appointments and contacts to the proper customer or lead in IFS Applications.

All tracking, logging and surveillance is handled through Addovation's own integration platform, Automation and Integration Server (AIS). The AIS is a powerful server solution that can handle all types of integrations.

POWERFUL SYNCHRONIZATION TO CONNECT INFORMATION TO THE PROPER CUSTOMER OR LEAD DIRECTLY IN IFS APPLICATIONS

ALL TRACKING, LOGGING AND SURVEILLANCE IS HANDLED THROUGH ADDOVATION'S AUTOMATION & INTEGRATION SERVER

THE SOLUTION REDUCES THE NEED FOR MANUAL REGISTRATION AND ELIMINATES THE HASSLE OF OPERATING TWO CALENDARS
